

# RFID DISPOSABLE TYVEK WRISTBAND

## Model:INNO-WB-TVD

### ►... Profile

This wristband is made of silicon and developed based on passive RFID Technology of EM (125Khz), MF (13.56Mhz) and UHF (860-960Mhz), which support ISO14443A, ISO/IEC15693 and ISO18000-6C/EPC Gen2 protocol. Flexible, waterproof silicone material makes it comfortable and durable for long lasting use and highest durability for most challenging activities. Widely used for parking and Payment, Club/SPA Membership Management, Rewards and Promotion system and access control, etc.

### ►... Key Features:

- Qualified paper/tyvek material makes it soft and comfortable to wear
- Disposable for better security purpose
- External number for easy identification and access control
- Customized logo, sizes and colors available

### ►... Specification:
